Career Abstract

.NET Professional with 4 years of hands-on experience in application development and maintenance across domains such as Project Management, ERP, Parcel Management, and Identity and Access Management (IAM). Skilled in building scalable web applications using ASP.NET, .NET Framework, .NET Core, MS SQL, PL/SQL, and the ABP Framework. Proficient in conducting functional testing, maintaining code quality, and contributing to project delivery through effective collaboration and technical problem-solving.

Technical Competencies

- **Programming Languages:** C#
- **Frameworks:** .NET Framework, .NET Core, ABP Framework
- **Databases:** MS SQL, PL/SQL
- **Web Technologies:** HTML5, CSS3, JavaScript, jQuery, AJAX
- **Messaging & Jobs:** REST APIs, RabbitMQ, Kafka (basic), Hangfire
- **Reporting:** Crystal Reports
- **Development Methodologies:** Agile/Scrum, DevOps
- **Tools & Technologies:** Visual Studio, GitLab, Entity Framework

Organizational Experience

Tenxity Solutions Pvt. Ltd., Chennai

Software Consultant (November 2024 - Present)

Anga Infotech Pvt. Ltd., Coimbatore

Software Engineer (September 2021 – October 2024)

Project Details

Project Title: IAM System – Identity & Access Management (A-star Singapore)

Role: Software Consultant (Nov 2024 – Present)

Description: An enterprise-grade IAM system used to manage user identities, entitlements, and access provisioning across multiple applications. Responsibilities include maintaining the legacy system, fixing production issues raised via tickets, and deploying updates based on client timelines. Also contributed to the development of a new IAM platform using ABP Framework, with integrations like Kafka, Hangfire, and Active Directory to enhance provisioning and automation.

Project Title: T-soft (ERP for KDHP)

Role: Maintenance Developer (*Sep 2023 – October 2024*)

Description: T-soft is an ERP-based application developed to maintain the overall workflow of a tea plantation company, including inventory management, production management, employee management, sales and distribution, financial management, and reporting.

Project Title: Speed Parcel Service (A1 Parcel Services)

Role: Software Developer (*January 2023 – June 2024*)

Description: A web application designed for the efficient tracking, organization, and distribution of parcels, featuring QR code integration, user access control, notification systems, and secure data storage.

Project Title: Project Management System (AIT PMS)

Role: Software Developer (*April 2022 – December 2022*)

Description: A project management system created to plan, execute, monitor, and control projects efficiently, covering project planning, resource management, task management, and reporting.

Project Title: Clinical Management System (Kavya Ortho Center)

Role: Software Developer (*December 2021 – March 2022*)

Description: A web application that streamlined hospital operations, integrating various administrative, clinical, and financial functions for effective patient care and resource management.

Educational Qualifications

Bachelor of Engineering (Electronics and Communication)

Anna University, Chennai | 2021
